Kehila Illness Policy

We strive to promote the health and safety of all the students within our school. An ill student is best cared for at home. Please do not return your child/ren to our school until the time we have requested has been adhered to. Your cooperation with these procedures and guidelines will be greatly appreciated.

Vomiting	24 hours after it has stopped
Diarrhea	24 hours after is has stopped
Fever	24 hours clear
Chicken pox	After all spots have crusted over
Lice	Free of lice and live eggs (nits). Each child must be checked by our staff before the child returning to their classroom
Conjunctivitis	Once the eye is clear of discharge and redness the child must be checked by our staff before returning to their classroom

PLEASE NOTE: When a student returns from being sent home sick, or having been away on a sick day, parents/guardians are asked to report to the office before sending their child to class. Parents/guardians will then be asked two questions:

1. When was the last time your child threw up? And/or
2. When was the last time your child had diarrhea?

If the 24 hour waiting period has not been followed, your child will have to be sent back home.
